

Scrubber 50 Pro / Sprayer
AI-Powered Robotic Floor Scrubber

SMART AND FLEXIBLE

Unprecedented efficiency and flexibility

Scrubber 50 Pro offers the most diversified path planning modes to deliver the highest degree of flexibility in cleaning plan customization. Its groundbreaking Auto Spot Cleaning mode allows it to detect and remove the stains right off before they're spread all over the floor, and brings up to 4-time efficiency improvement by cleaning only when necessary.

- Groundbreaking Auto Spot Cleaning
- Simultaneous floor cleaning and atomizing disinfection
- Up to 1,800 m²/h cleaning efficiency

CLEANING MADE EFFORTLESS

Simplify your work process

Scrubber 50 Pro will make cleaning much easier with little need for human interference. It perceives environmental changes, updates the map and reroutes itself in real time – you don't need to stand by to save it from getting lost or stuck. With the optional workstation, the robot can perform automatic power charging and water refill by itself. It also offers remote access via Gausium mobile app that enables you to monitor and control your cleaning task from anywhere.

- Smart obstacle avoidance and rerouting
- Remote-control mobile app
- One-stop service workstation

BUILT TO LAST

Meet your sustainable development goals

Scrubber 50 Pro is made of enduring, easy-to-recycle materials. It adopts LFP batteries with a long lifespan of 2,000 cycles. Equipped with a water recycling filtration system, Scrubber 50 Pro reduces around 80% freshwater usage. The Auto Spot Cleaning mode also ensures the most efficient operation path to curtail water and energy consumption.

- Durable LFP batteries of 2,000 cycles
- Ultra-long atomizer lifespan of 5,000 hours
- Built-in water-saving filtration system

Key Features:

➔ 4 in 1

Integrating scrubbing, sweeping, dust mopping and sanitizing (optional sprayer kit)

👤 Ergonomic Manual Mode

Easy manual operation - effortlessly walking and steering the machine with the ergonomic handle

💧 5-stage Filtration System

Recycling water and reducing ~80% of freshwater consumption

📏 Superb Productivity

Up to 1,800 m²/h cleaning efficiency with disc brush and 1,512 m²/h with roller brush

🔌 Minimal Human Intervention

Optional workstation for selfdocking power charging, water refill and discharge

🎯 Auto Spot Cleaning

Scanning the cleanliness of the nearby floor and autonomously performing spot cleaning where waste or stains are detected, bringing up to 4X efficiency improvement and significantly reducing energy consumption

Superb performance in a broad range of applications:

Shopping centers | Supermarkets | Transportation hubs
Office buildings | Hotels | Hospitals | Schools | Sports hall | etc.
